

# In the Shadow

## The assignment:

- Photograph some cool interesting shadows and silhouettes with your camera. One photo must have a person/people in it
- Use the rules of composition that we have studied.
- Make and print contact sheet. (I'm looking for at least 10 photos)
- Select your four best photos — two from each category.
- Edit each photo using the 10 Step Editing Process.
- Upload the photos to the folder in Google Drive. **JPGS ONLY**

\*\* Name the photos:

Last Name \_Shadow.jpg

Last Name \_Shadow2.jpg

Last Name \_Silhouette.jpg

Last Name2 \_Silhouette.jpg

## Tips:

- Look for shadows in interesting shapes. Shadows from one object that fall onto another object.
- Look for pretty light. The shadow and what is casting the shadow don't have to be in the same photo.
- BE CREATIVE.
- The best time of day for long shadows is early morning and late evening.
- Label this project "In the Shadow."
- Rule of thirds and clean backgrounds make this assignment great.
